

**ACO Realizing Equity, Access, and Community Health (REACH) Model
PY 2023 Annual Quality Performance Report**

Table 1: Quality Performance Results - Summary Information

Reporting Period: 01/01/2023-12/31/2023

ACO ID: D0211

ACO Type: Standard

Table 1. Summary Information											
Measure	Measure Name	Measure Score	Points Earned	Points Possible	Total Points	Initial Quality Score (0-100%) ¹	CI/SEP Gateway Multiplier ^{2,3}	HEDR Adjustment (Percentage Points)	Total Quality Score (0-100%)	Quality Withhold Earned Back (0-2% of the financial benchmark)	HPP Bonus ^{2,4}
ACR	Risk-Standardized, All-Condition Readmission (a lower [↓] score indicates better performance)	15.11	9.500	10	36.281	90.703%	1.0	10.00	100%	2%	No
UAMCC	Risk-Standardized, All-Cause Unplanned Admissions for Patients with Multiple Chronic Conditions (per 100 person-years) (a lower [↓] score indicates better performance)	32.63	9.000	10							
TFU	Timely Follow-Up After Acute Exacerbations of Chronic Conditions (a higher [↑] score indicates better performance)	70.22	8.250	10							
CAHPS	Consumer Assessment of Healthcare Research and Quality ⁵ (a higher [↑] score indicates better performance)	0.95	9.531	10							

How to Perform the Calculations

- Initial Quality Score = Total Points Earned / Total Points Possible

Footnotes

1. The Initial Quality Score is calculated by dividing the Total Points Earned (sum of "Points Earned" column) by the Total Points Possible (sum of "Points Possible" column). If your ACO was exempt from the CAHPS Survey submission requirement or had points assigned for fewer than 50%, or 4 out of the 8 SSMs, your ACO will not receive a CAHPS Composite Score and the Total Points Possible will be reduced by 10. Therefore, the Total Points Possible will be 30 rather than 40.
2. The CI/SEP Gateway Multiplier and the HPP Bonus only apply to REACH ACOs that began participating in ACO REACH prior to PY 2023. ACOs that did not begin participating in ACO REACH until PY 2023 will receive "N/A" for these values.
